

Service Offering

IPC Health has moved its services to Telehealth systems, to reduce the transmission of Coronavirus while providing quality care to our clients. Only critical face-to-face services remain open and delivered onsite at our campus locations. See our service listing below.

Exceptional circumstances: (⏏ - indicates exceptional circumstances)
 Exceptional client circumstances may require the service to be provided face to face; either onsite at an IPC Health campus or as an outreach service. This will be determined by the service provider, in consultation with Supervisor/Manager, on a case-by-case basis.

<h2 style="color: #0070C0;">ONSITE Services</h2> <p>Face to face services available at our campuses</p>
